XXIX. Packaging

1. Generalities

When developing articles, for each model the packaging must be defined, and the information entered in Flex PLM.

Regardless of the carton used, the packing rules are as follows:

1. The box must be mono SKU (style – color – size)
2. Parts must not compressed
3. The box must be closed with an adhesive security tape (Artwork available on request, see taping method in document QC-SP-10041).

78

4. The maximum weight per carton should not exceed 15 kg
5. For dashes -10/-11/-97/ -98 /-99: one big bag per box is recommended.
6. The box AA will be used mainly, except if it exceeds 15 KG

In the event of an incomplete AA box:
* If less than 50% → package in box BB
* If more than 50% → package in cardboard AA (parts wedged with shims)

Labeled Images

S - Sweat	QC-SP-10-040 December 2023 V1.1	LACOSTE

2. All markets

a. Fill and close the boxes

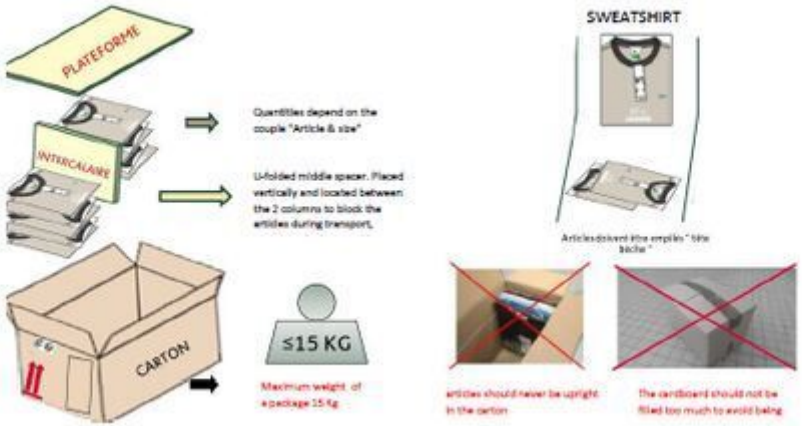

Here are the boxes to use :

Carton AA : 602x402x375 reference : : F7356

Carton BB : 602x402x190 reference : F7363

Plaque carton (Platform) : 250*450 reference : F72930

Put a platform at the top of the box.

79

Labeled Images

Sweatshirt + Sweater – Men/Women/Kids from 3 to 16Y
WITHOUT CARDBOARD - EXCEPT FOR: Sweatshirts made primarily of synthetic and/or artificial fibers + weight per m² < 200g - mesh sweaters and Sweaters GG ≥ 16

With hood

Fold the hood over the back

1

Fold the left side over the template

2

Fold the right side over the template

4

Fold the bottom of the article up against the bottom of the template

5

Fold down the bottom of the item to align it with the collar then take off the template

High collar

≤ à 8 cm (basic size)
↳ Close the zipper

> À 8cm (basic size)
↳ Open the zip to the base of the collar and lay it flat

6

Close the polybag to block the article.
The barcode must be legible.
